received all the homage paid to her like a gentle queen.

Laura Schirmer was born in Boston. When still only a little girl she became known as a phenomenal planiste. At the age of seven years she made her professional debut in this city at thickering Hall, playing several difficult plano solos and singing some of the songs of Schubert and Mendelssohn. A little latter her mother took her to Europe, where she became the pupil of the masters in turn, studying singing, harmony and planoforte playing.

Returning to her native land, Miss Schirmer made a pronounced success at Boston's Globe Theatre in Auber's "Les Dlamants de la Couronne." After a series of concerts in Boston, New York and Philadelphia, she again went abroad, and after studying in Milan, made her debut at Pisa, Feb. 14, 1884, as Lucia, with complete success.

and after studying in Milan, made her debut at Pisa, Feb. 14, 1884, as Lucia, with complete success.

In Milan she met and was married to Arthur Byron, a well-known tenor. She afterwards sang her way to the hearts of the people in the lending cities of Germany, Italy and Russia. She sang before the crowned heads of these countries, and in Turkey she englaved Sultan Abdul Hamid II., and was appointed court singer to the Imperial Ottoman Court at a fabulous salary.

This all came about through the misfortune that befell her and her husband. The impressario who had engaged them became bankrupt, and the Sultan, who had heard of the great beauty of the Boston girl and her artistic successes, commanded her to appear and entertain his court. By his orders she was compelled to sing and to dance. The climax was reached when, after having sung and waltzed herself out of breath, she was given a piece of music and told by the Grand Vizer to sing it in Turkish.

She had fortunately learned enough of the language to be able to obey, and the Sultan was beside himself with delight. He ordered that she be paid 10,000 plastres, and appointed her singer to his court.

Tyoung Byron died, but the prima re-mained in Constantinople two years or more. She was the object of much jeal-plusy from other artists, and wicked stories were told. One day the papers of the world told that the beautiful Bostoner and

Leaving Turkey, the prima donna sang "Ophelia" at the Grand Opera, Paris, scoring a great success. Henry Mapleson, jr., saw and heard her, and was captivated. He had been sent from London to engage her for Italian opera. He fell in love with her, and they were married at the English Embassy Tuesday, March 17, 1890, the witnesses being Gen. Young and the Marquise de Preigne. Col. Mapleson's aunt. Among the guests were Lady Campbell, Duc de Galese, Sbrigita and Dr. Wilkie.

This talented woman was a stanch American. Visiting her native land with her busband, she was the reigning favorite in New York, Boston and Philadelphia, singing for private gatherings in the music rooms of the great mansions of society, her beauty, accomplishments and charming personal graces making her much sought after, both socially and professionally.

The secret, according to H. E. Schultz, the tailor, at 428 Sixth avenue, whose card was found in the suicide's pocket, was domestic trouble. Bolgs was a prosperous jeweller at Niagara Falls till a year ago. Then he began to be jealous of his wife. It became a mania with him, and she finally left him, taking her two children back to Germany, where her brother. Bolgs sold out and did practically no work after that. He imagined that emissis sales of his wife were intriguing for his ruin. His mind was full of delusions. He came from Ratzebuhr to America eight years ago.

Of course, the only conclusion to be drawn is that Corbett has been spirited away, in order to avoid arrest, and also in order to repair to the rendezvous prepared by the Club, in the event that the battle is to come off in the woods. There is something significant about this and the departure of Vendig to

All hands look upon the Club as the weak element.

Thirty-five of the militiamen of the Second Battalion did not show up at roll-call this morning. The attractions of a city like Jacksonville were too much for them. Corporals were sent out to gather in the derelicts.

In all sorts of odd corners of the city drunken soldiers were found. It seemed to be the special mission of Jacksonville men to get a soldier drunk just as soon as possible. When the corporals got on the trail of any of the malefactors there generally was a chase.

Hundreds of men stood in Hogan street at 10.30 o'clock and saw a corporal's guard chasing a party of delinquent soldiers. Up and down the street, in and out of alleys ran pursuers and pursued. The crowd shrieked with delight. One drunken militiamen ran towards the river, and being followed closely by a corporal and two men, he jumped into the water. The bath sobered him up, and he was fished out and dragged, shrieking, back to the Wilson Battery Building.

Of the Shine Guards, of Orlando, not one-half had reported at reveille this morning. What it will be when the city gets at fever heat to-night may be imagined.
The way in which the city has filled up since last night is wonderful. The streets are swarming with sports of high and low degree, and the talk is all about the coming fight.

A strange sort of optimism prevails on all sides. In spite of the depressing circumstances of yesterday, everybody believes the fight will come off by hook or crook. Both puglists are laying low, but will surely report at the Club to-night to place themselves under orders.

Benjamin Hurtado, a Cuban gentleman, is here from Havana. His mission is to induce Corbett to come to that city and give a few exhibition, so as to get the people in touch with the game. If the people of Havana are found to be sporty enough, the company running the Plaza de Toros de la Havana propose to getup the grandest tournament ever held, consisting of buil-fights and boxing contests.
